# the next wave in me

**The beauty of traditional shingles — the strength and durability of steel.**

ArrowLine's unique 4-way interlocking system withstands winds up to 160 mph, has the best hail rating available, and qualifies for lower insurance rates through some providers.

ArrowLine Enhanced Metal roofing is not just brute strength — they are available in blended color families with trim to match for an aesthetic statement like none other.

## LAYER SYSTEM PROCESS

Solid Steel Core

Double-Embossed Texture with Blended Finish

-  Trinar PVDF Fluoropolymer Finish (Kynar 500® or Hylar 5000®)
-  Trinar Polyester Corrosion Resistant Primer
-  Bonderite 1402W Conversion Coat
-  G-90 Galvanized Coating
-  Corrosion Resistant Backer Coat

# n Metal exteriors

## **Design and Durability**

ArrowLine's Enhanced Metal Shakes™ and Metal Slate™ have a multi-tone, blended-finish design for a heightened aesthetic impact. Engineered for roofing and sidewall applications, EDCO utilizes the latest technologies to optimize the durability, ease of installation, and the 'green-ness' of your new roof.

It's more than just ordinary roofing. Unlike traditional roofing products, ArrowLine Enhanced Shakes and Slate will not warp, split, peel, or crack and defy winds in excess of 100 mph. They easily withstand frigid northern winters as well as the blistering southern sun. Dual-coated with a deluxe KYNAR 500® finish to maximize color retention, ArrowLine Enhanced Shakes and Slate are available in 4- and 3-blended color families respectively. The unique double embossing pattern adds panel strength strong enough to be walked on and can be applied over an existing roof, thereby reducing installation costs.

## **Excellent Performance**

Arrowline has a unique 4-way locking system that allows them to be installed quickly and easily which helps keep labor costs to a minimum. This 4-way system locks out the harshest of weather conditions. Permanent and virtually maintenance-free, an ArrowLine roof will last for years to come without incurring typical upkeep expenses.

The next wave in lasting building materials makes ArrowLine the best choice for discerning owners.

# ArrowLine® Blended Color Families

Coated with a deluxe KYNAR 500® finish to maximize color retention, ArrowLine Enhanced Shakes & Slate are available in an array of blended colors.
