

GUARDIAN ROOF
ARMOR™ **POLY**
ICE & H₂O
 SELF ADHESIVE

Guardian Roof Armor™ Poly Ice & Water Shield is a durable self adhesive composite underlayment. The strong, slip-resistant, polyester surface provides a rugged barrier to physical damage, UV degradation, weather and moisture.

This product is most commonly used at eaves, valleys, chimneys, and other potentially troublesome areas, although it can be used on the entire roof surface if you prefer.

The unique, modified asphalt adhesive layer offers the application benefits of cold temperature adhesion and exceptional thermal stability under high heat. The self-adhesive layer is covered with a release sheet which is removed during installation.

Made in the U.S.A. using high quality materials.

- ✓ 200 sq. ft / roll (3' x 66.7')
- ✓ Self adhesive
- ✓ UV Resistant
- ✓ Slip-resistant polyester surface
- ✓ High temperature applications up to 260 degrees
- ✓ Rugged barrier against foot traffic
