

Tough Polycarbonate Snow Guards

Snow Commander Model S

Dependable Snow Protection

Snow Commander Model S is a versatile snow guard that works well on nearly any type of metal roofing panels.

Molded from strong polycarbonate, Model S is available in both clear and 12 colors. Model S is the smallest snow guard in the Commander family.

Snow Commander Model S

Tough

Formed from high grade polycarbonate for long term strength and durability, Snow Commander™ Model S snow guards are designed to perform under pressure.

Lasting

Extra long gussets extend past the last mounting point for extra strength.

Revolutionary Installation

Perfect Seal™ gaskets eliminate the need for tricky and weather dependent tube sealants. Constructed of PVC, this gasket fits perfectly into the channels on the underside of the Model S snow guard. This allows perfect placement and a tight seal everytime.

Snow Commander™ Model S snow guards are fastened using 3 wood screws for secure mounting.

Simple Sophistication

Model S snow guards are designed to flow smoothly with the design of metal roofing panels, with smooth curves and lines that look well on any roof.

Choose Clear or Colors

Choose from either clear or 12 different popular colors for a look that blends with your metal roof.

No Minimums

As with all of our snow guards, you can purchase any quantity of Model S Snow Guards.

Perfect Seal™ Gasket Eliminates Need for Sealant
