

EDCO STEEL SIDING

Board & Batten, Traditional, Dutchlap

*Siding: S6" Canyon; V12" Mahogany;
Soffit, Fascia and Trim: Sandtone*

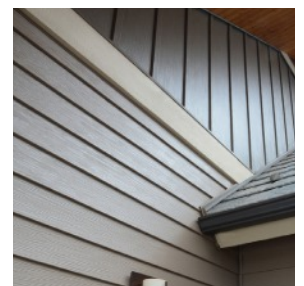

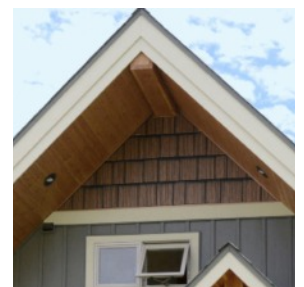

Steel Siding

Beautiful. Inspiring. Everlasting.

Give a natural, elegant style to your home or business that will last a lifetime. EDCO steel siding is the most durable exterior building product available in the industry.

Whether you choose traditional lap, dutchlap, vertical (board & batten), shake or a combination of these products, you have endless design opportunities that provides distinctive style and lasting quality to your home or business.

EDCO siding provides home and business owners peace of mind with maintenance free products that are backed with a lifetime, non-prorated limited warranty with hail and fade protection.

Siding: V12" Driftwod Gray

EDCO Steel vs. Other Siding:

Selecting a Superior Product Creates a Lasting Impression

EDCO Steel

vs

Fiber Cement

Maintenance-Free

- Properly installed, our materials and finishes ensure that you will never need to paint or caulk your siding again.

Maintenance Required

- Requires caulking and painting to maintain its original look and prevent damage from moisture absorption.

EDCO Steel

vs

Engineered Wood

Durability

- Backed by a lifetime, non-prorated limited warranty, which includes a 35-year fade warranty, means you will not have to worry about the exterior of your home.

Limited Protection

- Full warranty is available for only 5 years, then prorated over the next 45 years.

EDCO Steel

vs

Vinyl

Lasting Beauty

- Maintains its natural look, with colors that won't fade or crack, regardless of which profile you choose.

Vulnerable

- Manufactured from a plastic PVC material that will fade, bow and breakdown over time.

Siding: S6" Traditional Lap Siding in Driftwood Gray; V12" Board and Batten in Driftwood Gray; Soffit, Fascia and Trim in Glacier White.

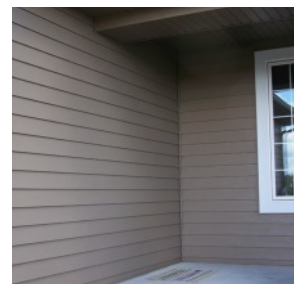

Steel Siding with ENTEX® Finish

Timeless Style. Unmatched Quality.

EDCO siding products utilize the latest and most innovative paint technologies to ensure that it can withstand the most harsh weather conditions.

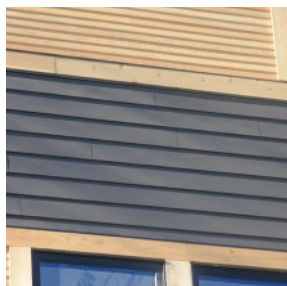

Our proprietary ENTEX® Cool Chemistry paint technology, with an Enduragrain texture, is available in unlimited premium color options and comes with an unmatched lifetime warranty including a 35-year fade and hail protection. This natural finish is virtually maintenance-free, which means you will never paint your home again. It will not chip, crack or peel. It can also reduce energy costs because of the reflective nature of the paint technology.

Available in traditional or dutchlap siding profiles, as well as Vertical 12" Board & Batten and a full-line of color-coordinated accessories.

*Siding: Single 6" Traditional Lap Siding in Sapphire Blue;
Roofing: Infiniti Textured Shake Granite Gray Enhanced Roofing;
Sidewall: Vertical 12" Board and Batten Sapphire Blue*

Prism Siding Collection

Elevating the Beauty of your Home.

The Prism Collection is based on our proprietary ENTEX finish. It provides a natural wood-grain texture combined with rich, elegant colors and a subtle hint of mist.

The technological advancement of Prism offers long-term color retention which means you will never paint your home again. Just like the ENTEX finish, the Prism finish will not chip, crack or peel and has the same unmatched lifetime warranty including a 35-year fade and hail protection.

Available in Single 6" traditional lap siding, as well as Vertical 12" Board & Batten and a full-line of color-coordinated accessories to complete the look of your home or business.

Profile Selection

Choose the profile that matches the look you desire.

(profile images shown in EnduraGrain embossing)

Traditional Lap - Double 4-Inch Wickertone

D5

Dutchlap - Double 5-Inch T-Tone

V12

Vertical 12-Inch Board & Batten Glacier White

Where do I begin?

Five things to consider before starting a siding project.

1. Consider the amount of maintenance you are willing to invest to maintain curb appeal.
2. Evaluate homes in your neighborhood to find a look that meets your desires.
3. Consult your insurance agent to determine if any discounts are available with a specific type of siding material.
4. Find a licensed and reputable contractor with experience installing the material you have chosen.
5. All warranties are NOT created equal. Read the fine print to really understand the warranty that comes with your choice.
