

SENTRY
METAL ROOFING

Strength and Endurance

SENTRY SHAKE

PROTECTING WHAT MATTERS

Sentry Shake is premium grade roofing. Sentry is formed using the highest quality steel using advanced form press machinery. A tough G-90 galvanization coating, topped with a superior, multi-tone Kynar® 500 paint finish provide the strength and natural beauty you desire. Sentry Slate has a subtle stone embossed surface to provide just the right texture, and is available in 4 stunning stone shades.

Sentry Shake

Cedar Shake, Steel Performance

Cedar Shake

Cedar shake roofing is natural, inspiring, and unique. Homeowners often look into it but are turned away by the short lifespan, upkeep, or issues with bugs and rot.

Introduce Sentry Steel Shake Roofing.

Steel

Press stamped from 29 gauge G-90 galvanized steel, Sentry Shake offers the strength, light weight, and fire resistance that you need.

Natural Wood Finishes

Sentry Shake is available in three true-to-nature finishes: Aged Cedar, New Cedar, and Weathered Cedar.

Lifetime

Sentry Shake is a lifetime roof, backed by a lifetime warranty.

New Cedar

Weathered Cedar

Advanced Protective Coatings

Sentry Shake is protected by a tough Kynar 500® . Hylar® 5000 paint system: tough for installation, resistant to fading, and Energy Star® reflectivity to save on utility bills.

Paint: Durable baked on paint offers a permanent finish, easily lasting 40+ years. This ensures protection and beauty for years to come.

Galvalume: Under the paint, Galvalume (55% zinc, 45% aluminum) provides lasting corrosion protection, even if paint is scratched during installation.

Steel: A heart of high-tensile steel guarantees strength and endurance. With the highest ratings possible for wind, hail, and fire, Sentry Shake is ready to weather anything nature throws its way.
